

Merchant Remote Deposit Scanner Installation Guide

Merchant Remote Deposit offers two different views, **Classic** and **Contemporary**. The browser type used to access the application will determine which view is shown. This guide provides instructions on how to download scanner drivers for both Classic and Contemporary view.

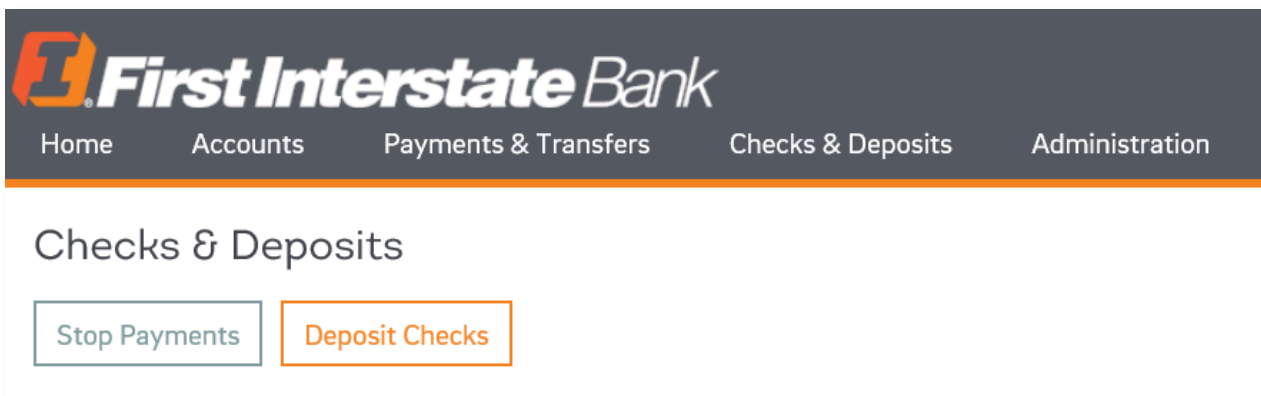

- **Classic** view is only available for Internet Explorer. The Scanner Installation Guide for Classic view starts on page.
- **Contemporary** view is available for Internet Explorer, Microsoft Edge, Google Chrome, Mozilla Firefox, and Safari. The Scanner Installation Guide for Contemporary view starts on page 6.

For both **Classic** and **Contemporary** views, login to Remote Deposit:

1. Go to www.firstinterstatebank.com.
2. Click **Login** and select **Corporate Online Banking (I-Corp)** from the drop-down menu.
3. Enter your Username and Password.
4. Click the **Sign In** button.

5. Under Checks & Deposits, click the **Deposit Checks** button. The Single Sign-On will allow you to access Remote Deposit directly.

Classic View

Scanner Installation

1. Under the Help option, click **Download Page**.

2. Scroll down the list until you see the scanner you need to install. This is typically the DigitalCheck TS Series and CX30 or the Panini. Click **Install Now**.

3. When you see the following message, click the arrow next to Save and click **Save As**.

4. Select the location to save the executable file. This will need to be saved on the local computer, preferably the Desktop or an easily accessible location. **Do not run the application from the website.**
5. Right click the executable file and select **Run as administrator**.

6. The following splash screen will appear:

7. The application will verify if the user is an administrator. If the user is an admin, the button will say, "Install." Click **Install**.

The application window will be unresponsive while the installation runs.

8. The application will check for any currently installed Ranger drivers. If no previous versions are detected, move to Step 9. If you receive a message regarding previous versions that are detected, you can perform one of the following actions.

- a. Click **Yes** to uninstall the current drivers.
- b. Click **No** to leave the existing drivers and continue the install.

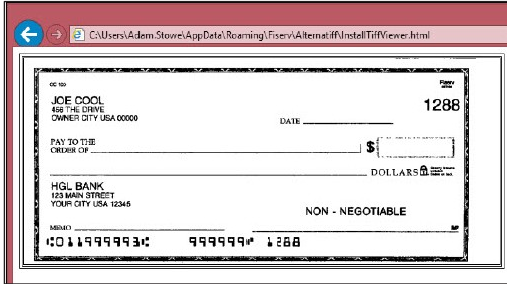

9. When prompted, click the affirmative option on additional message boxes that may appear to continue the installation.

During the installation, Internet Explorer will open with the image of a blank check box.

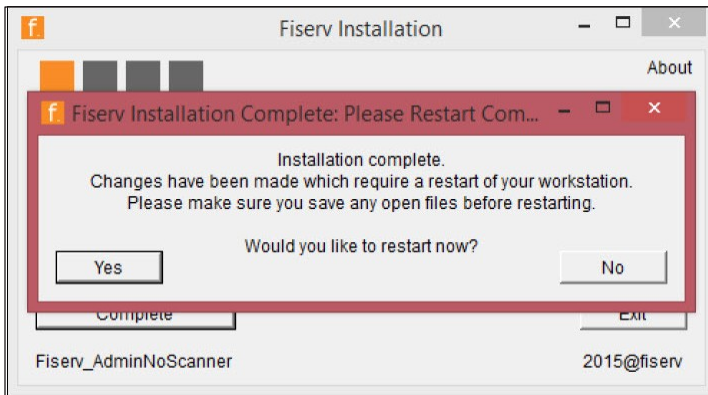

10. Click **Allow blocked content**.

11. Close the Internet Explorer page once the image is visible.

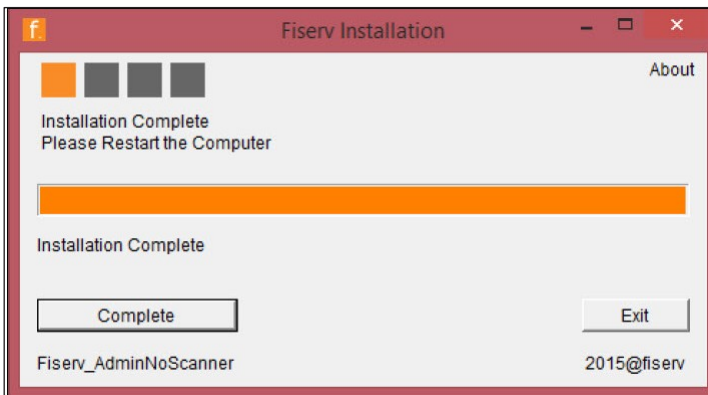

12. Click Yes.

When the message box is closed, the application will show complete.

13. Click Complete or Exit to close the application.

Once the installation is complete, you must restart the workstation before using Merchant RemoteDeposit.

9. When prompted, click the affirmative option on additional message boxes that may appear to continue the installation.

During the installation, the browser will open with the image of a blank check box.

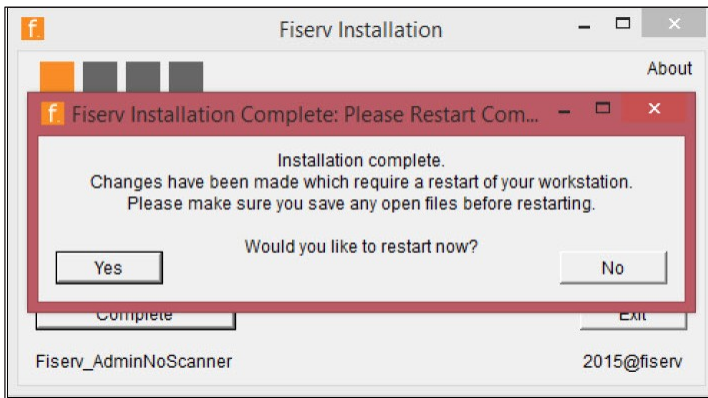

10. Click **Allow blocked content**.

11. Close the browser page once the image is visible.

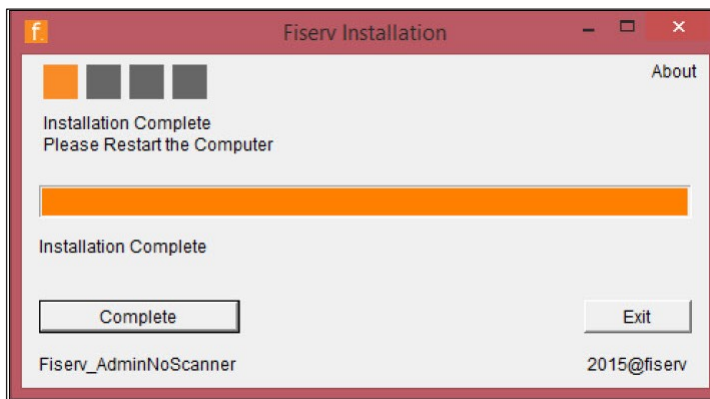

12. Click Yes.

When the message box is closed, the application will show complete.

13. Click **Complete** or **Exit** to close the application.

Once the installation is complete, you must restart the workstation before using Merchant Remote Deposit.

Ranger Remote Installation

Note: You must complete the following steps if using any browser other than Internet Explorer.

1. Scroll down the list on the Download Page of Remote Deposit until you see the RangerRemote Component. Click **Install Now**.

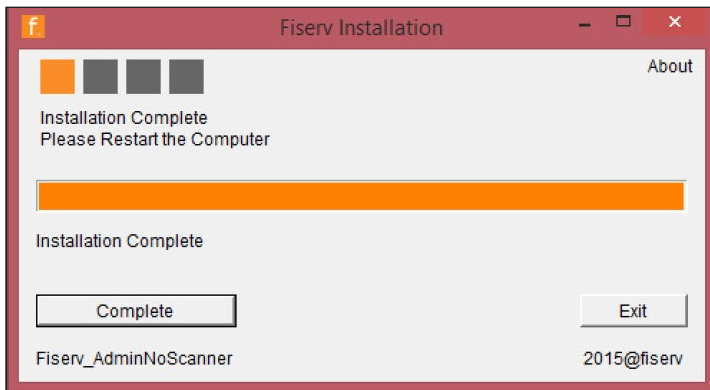

2. When you see the following message, click the arrow next to Save and click **Save As**.

3. Select the location to save the executable file. This will need to be saved on the local computer, preferably the Desktop or an easily accessible location. **Do not run the application from the website.**
4. Right-click the executable file and select **Run as administrator**.
5. The application will verify if the user is an administrator. If the user is an admin, the button will say "Install". Click **Install** to begin. The process may take a few minutes.

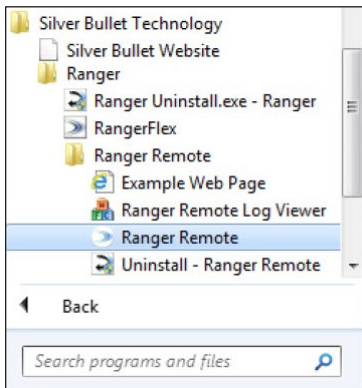

6. Once complete, click Exit to close the form.

Starting up Ranger Remote the First Time

Note: These steps are only required right after installing Ranger Remote, if it does not automatically start post-installation. The application will automatically start up when you log into Windows each time.

1. To launch Ranger Remote, go to **Start > All Programs > Silver Bullet Technology > Ranger > Ranger Remote** and start **Ranger Remote**.

2. An icon  will appear in the bottom-right taskbar.

Right click on the icon and select **Start Server**

For additional assistance, please contact your local **Treasury Solutions Representative** or **Treasury Support** at **855-342-3400**.
